

Google Account Syncing

Signing into the Chrome browser and turning on Chrome Sync allows you to use many helpful features of Google Chrome. They include saving passwords, book marks, and browsing history across multiple devices. Since we are a Google Workspace subscriber, we utilize your Google account syncing to give you access to many other services such as Adobe Creative Cloud, Clever, IncidentIQ, and many more. Follow the instructions in the following link or perform the steps outlined in this article.

Chrome Syncing
